## 20. Competitor Relations

If a competitor has a concern, complaint, question, or suggestion about judging, or the running of the event, he, or she should raise the matter in the first instance with the Competitor Relations Officer.

It is hoped that competitors will participate in the Concours d'Elegance in a friendly and sporting manner and that concerns will be settled with the Competitor Relations Officers.

## 21. Results

The full provisional results for each class will be posted on the official notice board as soon as possible after the completion of judging of that class.

The official notice board for cars will be located beside the main grandstand at the Nairobi Racecourse and the notice board for motorcycles will be outside the Jockey Club office.

The Chief car and motorcycle judges will sign the provisional results for each class at the time of posting them on the notice boards. After 30 minutes the class results will be confirmed by the Chief car and motorcycle judges and will become final.

## 22. Protests

If a competitor considers it necessary to make a formal protest, this must be in writing and must refer to a single subject. A protest must be signed and raised with the Competitor Relations Officer within 30 minutes from the posting of the results.

The protest fee is 5,000 shillings payable in cash at the time of handing

in the protest in writing to the Competitor Relations Officer. If the protest is upheld the fee will be returned.

The Chief car, or motorcycle judge will conduct an investigation and has the right to call judges, officials and competitors to aid in the investigation.

The Chief car, or motorcycle judge will appoint a Jury to adjudicate. The Jury will control the meeting with the aggrieved competitor in respect of the rules as well as the adjudication of penalties except when otherwise provided for in the regulations.

The Jury is the only tribunal of the meeting competent to adjudicate upon any protest that may arise during the meeting.

The Jury must settle any dispute and impose penalties where necessary and will announce the decision at the end of the investigation.

If the time taken is likely to delay the prize giving ceremony, the award for the contested position will be postponed until the matter is resolved.

## 23. Appeals

An aggrieved competitor has a right to appeal against a decision of a Chief car, or motorcycle judge in accordance with the standing supplementary regulations of the Kenya Motor Sport Federation.

The National Appeal fee is 7,500 shillings payable in cash to the KMSF Steward when lodging the intention to appeal. If the appeal is upheld the fee will be returned.

## 24. Stewards Reports

The Kenya Motor Sports Limited Steward will compile a Steward's report to be sent to the KMSF secretariat by the Wednesday following the event. This report shall consider all matters relating to the event with particular focus on the implementation of rules and regulations, safety and environmental matters.

The Environmental Officer will compile an Environment Report to be sent to the KMSF secretariat by the Wednesday following the event.

#### **25. Environmental rules for Motorcycle Competitors**

All motorcycle riders must use environmental mats in their parking bays and ensure that there is no spillage of fuel, oil, or other contaminations. A supply of mats for Concours cars will be available at the Total inspection ramp for use by car competitors who have a fuel, or oil spillage problem.

#### **26. Consumption of Alcohol**

Alcoholic drinks must not be brought into the competitors paddock and the motorcycle judging ring. Competitors and officials are not allowed to drink alcohol until the results have been confirmed at the end of the event.

Failure to observe this rule will exclude the competitors and exclude officials from working at future events.

#### **27. End of the Concours d'Elegance**

The Concours d'Elegance is not considered finished until the time limits for protests have elapsed, and all protests and appeals have been settled. All officials must remain on duty and be available to the Jury and The Chief Judge in case there is a protest.

If an appeal is lodged, the results cannot be considered as definitive until a final decision has been taken. The competitors placed first, second and third will be asked to attend the official prize giving ceremony if any.

### **Section 2 – Method of Scoring**

#### **A. Vehicles with Four or More Wheels**

Originality is not taken into consideration in the assessment of Concours entries.

**The judges, at their sole discretion, will allocate points under the following**

#### **headings:**

##### **1. Underside Maximum 40 points**

The main item of interest to the judges will be cleanliness, followed by a check of the exhaust system and a look for oil and water leaks.

##### **2. External Finish Maximum 80 points**

Points will be earned for cleanliness, condition of the paintwork, chrome, lights, etc.

*(The judges will pay particular attention to dents, scratches, chips in the paintwork, etc.).*

##### **3. Interior and Boot Maximum 60 points**

The condition and cleanliness of upholstery, carpets, door panels, roof lining, dashboard, instrument panel, boot lining, spare wheel housing, etc. will be studied by the judges.

##### **4. Engine and Engine Compartment Maximum 60 points**

The condition and cleanliness of the engine and engine compartment will be checked, and the judges will also look for oil and water leaks and consider the condition of the wiring.

##### **5. Roadworthiness Maximum 60 points**

The judges will check tyres, headlights, tail lights, horn, indicators and windscreen wipers (where these are fitted). If a car is completely roadworthy, six points will be earned. One point will be deducted for each mechanical weakness (*e.g. an unserviceable tyre*).

If a vehicle is not driven along the judging line, but has to be pushed from one judging point to another, a penalty of ten points will be deducted.

##### **6. Age**

It is inevitable that a vehicle suffers wear and tear through usage and that

vehicles which are comparatively new will have an advantage over those which have covered many kilometres over several years of service.

In order to compensate entrants with older vehicles, the following points will be allocated for age:

<b>10 years old and under 11 years old</b>	<b>10 points</b>
<b>11 years old and under 12 years old</b>	<b>11 points</b>
<b>12 years old and under 13 years old</b>	<b>12 points</b>
<b>13 years old and under 14 years old</b>	<b>13 points</b>

The allocation of points for age continues along these lines up to a maximum of 40 points for vehicles which were made 40 or more years ago. Vehicles which are over 40 years old will receive 1 point for every 10 years in excess of 40 years.

To illustrate by examples: a vehicle which is 26 years old (*but less than 27 years*) would receive 26 points and a 53 year old vehicle would be allocated 41 points (*40 plus 1*).

The age of competing vehicles may be established by the log book or by some other form of proof acceptable to the organisers.

In cases where documentary proof of age is unavailable, inadequate, or not appropriate, the organisers will date the vehicle by assessing the age of the main structure. If a vehicle consists of a variety of parts made by several manufacturers in different years, the date of completion of building the vehicle will be the age of the machine for the purpose of judging at the CBA Africa Concours d'Elegance. The dating of the vehicle will be carried out together with the entrant.

## **7. Tie Breaker**

In the event of a tie, the advantage will be given to the older vehicle. If by an unlikely coincidence both vehicles were registered on exactly the same day, the Chief Judge will examine the two vehicles concerned and decide which is the winner.

## **B. Motorcycles**

Originality is not taken into consideration in the assessment of Concours entries.

**The judges, at their sole discretion, will allocate points under the following headings:**

### **1. External Finish Maximum 50 points**

Points will be earned for cleanliness and condition of the paintwork, chrome, lights, road wheels and instrument panels. (*The judges will pay particular attention to dents, scratches, chips in the paintwork.*)

### **2. Engine and Mechanical Components Maximum 50 points**

The engine, gear box, exhaust, drive, electrical systems and all metallic parts will be checked and the judges will also look for oil and water leaks. Points will also be earned for the cleanliness of the engine and gear box.

### **3. Trim Maximum 50 points**

The condition and cleanliness of the saddle, carriers, fairings, battery and all non metallic parts will be assessed.

### **4. Roadworthiness**

If a motorcycle is not ridden along the judging line, but has to be pushed from one judging point to another, a penalty of ten points will be deducted. In the case of a specialised high performance racing motorcycle, it will be sufficient for the competitor to start the engine, run it for approximately two minutes (*to show if there are fuel, or oil leakages*) and ride to one judging point.

## 5. Age

It is inevitable that a motorcycle suffers wear and tear through usage and that motorcycles which are comparatively new will have an advantage over those which have covered many kilometres over several years of service. In order to compensate entrants with older motorcycles, the following points will be allocated for age and mileage:

<b>3 years old and under 4 years old</b>	<b>3 points</b>
<b>4 years old and under 5 years old</b>	<b>4 points</b>
<b>5 years old and under 6 years old</b>	<b>5 points</b>

The allocation of points for age continues along these lines up to a maximum of 40 points for motorcycles which were made 40 or more years ago. Motorcycles which are over 40 years old will receive 1 point for every 10 years in excess of 40 years.

To illustrate by examples: a motorcycle which is 26 years old (*but less than 27 years*) would receive 26 points and a 53 year old motorcycle would be allocated 41 points (*40 plus 1*).

The age of competing motorcycles may be established by the log book or by some other form of proof acceptable to the organisers.

In cases where documentary proof of age is unavailable, inadequate, or not appropriate, the organisers will date the motorcycle by assessing the age of the main structure. If a motorcycle consists of a variety of parts made by several manufacturers in different years, the date of completion of building the motorcycle will be the age of the machine for the purpose of judging at the CBA Africa Concours d'Elegance. The dating of the motorcycle will be carried out together with the entrant.

## 6. Tie Breaker

In the event of a tie, the advantage will be given to the older motorcycle. If by an unlikely coincidence both motorcycles were registered on exactly the same day, the Chief Judge will examine the two motorcycles concerned and decide which is the winner.
